

WCSQM Student Character Campaign - Student of the Month

Student submission form

Student name: Sarah Clayton

Year group/form: 13 School name: St Mary's College

Instructions to teacher

Look through the completed sample form before you complete this form.

You can use this form internally to work through the WCSQM characteristics framework with your students as and when you like. To **nominate for Student of the Month** complete the student's details above. Delete every characteristic except for the one characteristic which the student wants to submit. Submit the form to info@worldclass-schools.org at any time. **Please ensure you have sought full permissions for the information submitted to be shared publicly by WCSQM.**

We are #worldclass **learners** and **leaders** with a **commitment to achieving** the best for our **community** and our best in the **work place**, by acquiring a deep **knowledge and understanding** of our world'

5. I am **the best candidate in my field for higher education and/or employment** because I ...

e...am highly employable

Sarah has a quiet confidence and sense of purpose about her which, combined with the compassion which sits at her core, makes her an outstanding candidate for her chosen profession of midwifery. Sarah studies biology, chemistry and maths at A level and has achieved outstanding grades throughout her time at St Mary's Sixth Form.

In her sciences, Sarah has developed her understanding through her positive approach to independent work and her consistently high achievement. Her passion for the subject is illustrated by the additional reading she completes in her own time, which feeds into the questions she poses and the discussions she develops with subject teachers and peers as a result. Sarah is confident in carrying out experimental and investigative activities, including appropriate risk management in a range of contexts and consideration of the ethical issues presented by her work in the laboratory, important skills for a midwife. In

practical activities, Sarah uses her knowledge and understanding to pose scientific questions which can be investigated through experimental activities. She communicates complex scientific ideas clearly. In addition to her excellent work ethic and considerable academic ability, Sarah is consistently supportive to her peers and is a highly respected individual in her class. Sarah demonstrates equal commitment in maths, showing a talent and ability that would enable her to succeed in studying this subject at degree level.

In all her studies, Sarah picks up concepts quickly, applying knowledge into both familiar and unfamiliar situations. She has excellent analytical skills and is always willing to think through a problem. She is impressively hard working and shows a determination to succeed, refusing to give up until she has mastered a problem, asking for help appropriately. She has excellent communication skills and works instinctively as part of a team.

Sarah is an outstanding student in her A Level subjects; she also stands out as a member of the Sixth Form at St Mary's. She serves as the elected form representative, a role she also carried out last year, representing her peers' views to the management of the school in an effective and courteous way. Sarah is part of the Medical Health and Social Care Academy at St Mary's Academy and has made full use of the opportunities this has presented, including working with midwifery mentors to gain a full understanding of the role. Compassionate, resourceful and with a genuine, interrogated vocation for midwifery, Sarah combines integrity with inter-personal skills making her ideal for her chosen career and would be a credit to any employing healthcare organisation.
