

WCSQM Student Character Campaign - Student of the Month

Student submission form

Student name: Thanmaya Thomas Year group/form: 10YM School name: St Mary's College

Instructions to teacher

Look through the completed sample form before you complete this form.

You can use this form internally to work through the WCSQM characteristics framework with your students as and when you like. To **nominate for Student of the Month** complete the student's details above. Delete every characteristic except for the one characteristic which the student wants to submit. Submit the form to info@worldclass-schools.org at any time. **Please ensure you have sought full permissions for the information submitted to be shared publicly by WCSQM.**

We are #worldclass **learners** and **leaders** with a **commitment to achieving** the best for our **community** and our best in the **work place**, by acquiring a deep **knowledge and understanding** of our world'

 1. I am an **excellent learner, dedicated to life- long learning** because I...

Characteristics	
Description	Evidence
d...reflect on my achievements, revise and improve my ideas	<i>Thanmaya originally embarked on her learning journey into GCSE Science in Set 2 in September 2019 before recently progressing to join Set 1 in November 2020. Thanmaya's abilities as an excellent learner, dedicated to life-long learning were reflected in this</i>

progression. Thanmaya shows great personal awareness and the ability to reflect on her achievements and attainment regularly. This combined with her drive for personal development and effective revision strategies have undoubtedly improved her ideas and understanding significantly in this area of the curriculum.

Since Thanmaya's relocation to Set 1 and the onset of remote learning, her unwavering commitment to learning has been evident on numerous occasions. Thanmaya regularly contacts me for the purposes of clarification and enquiry, clearly highlighting her involvement in the revision and consolidation of knowledge beyond lessons. During lessons themselves, both in-person and remote, Thanmaya consistently challenges and unpicks scientific concepts to better comprehend them.

Under normal circumstances, these characteristics would be admirable but considering they have occurred during a period of significant academic disruption, Thanmaya's achievement deserves to be recognised and celebrated.
